Shaping the plastic free future™

With **Canepulp™**

Canepulp™ is a brand of Greenflix Bioware Private limited. We are manufacturing eco-friendly tableware, It is made from sugarcane bagasse, a renewable and sustainable resource. The bagasse is pulp moulded into various shapes and forms, creating sturdy and durable tableware items. Our products are perfect for restaurants, cafes, and events looking to reduce their environmental footprint. By choosing our biodegradable tableware, you are supporting a more sustainable future.

Our sugarcane bagasse tableware is compostable, biodegradable, and non-toxic. It is also heat resistant, making it suitable for serving hot foods and beverages. Our products are designed to replace traditional plastic and Styrofoam tableware, reducing waste and minimizing harm to the environment. With our eco-friendly tableware, you can enjoy your meal while doing your part for the planet.
